During the wet season it may become impassable. There are no saltwater crossings, but several water crossings, and steep sections. Conditions can change rapidly, especially during heavy and monsoonal rainfall. Check with Mossman Police, Wujal Wujal Police and/or go to Douglas Shire Council website:

<http://dashboard.douglas.qld.gov.au/>

The CREB Track connects Daintree Village with Ayton. It is an extreme 4WD track. It is usually closed during the wet season and reopens after the wet. As the weather changes every year, so does the opening and closing of the CREB. It can open as early as May, or as late as August. Check Douglas Shire Council website for updates, and you can recent conditions by checking this Facebook site: [Local CREB Track conditions | Facebook](#). ## ↑ Swimming Spots

During summer months (usually November to May but the season may differ by a matter of months depending on weather conditions) it is not advisable to swim in the ocean without seeking advice from local operators as stinging jellyfish may be present.

Throughout the year, it is always advisable to consult with local information centres and/or with local operators before entering waterways, and always avoid creek mouths, tributaries and the Daintree River or any other area where Crocodile warning signs are present.

All the resorts have swimming pools, and many holiday homes have private rainforest creeks with swimming holes for guest to enjoy swimming in the rainforest in fresh, cool water.

On the north side of the Daintree River, Mason's Swimming Hole at 3781 Cape Tribulation Road, Cape Tribulation is open to the public for a gold coin donation.

At Daintree Fan Palm Farm, there's a bridge over a creek, which during the wet season is a great spot for swimming. Check with Gina in the

If you dine at On The Turps Restaurant at Heritage Lodge, 96 Turpentine Road, Diwan, you are welcome to have a refreshing swim in the adjacent rainforest swimming hole in Coopers Creek.

## Crocwise in croc country

Crocodiles are potentially dangerous. Never take unnecessary risks in crocodile habitat. Everyone is responsible for their own safety, so please follow these guidelines and be crocwise in croc country.

- Obey crocodile signs—they are there for your own protection.
- Never swim in water where crocodiles may live, even if there is no warning sign present.
- When fishing, always stand a few metres back from the water's edge and never stand on logs or branches overhanging the water.
- Never clean fish or discard fish scraps near the water's edge or at boat ramps.
- Stay well back from any crocodile slide marks. Crocodiles may still be close and may approach people and boats.
- Never dangle your arms or legs over the side of a boat. If you fall out of a boat, get out of the water as quickly as possible.
- Never provoke, harass or interfere with crocodiles—even small ones.
- Never feed crocodiles—it is illegal and dangerous.
- Camp at least two metres above the high-water mark and at least 50 metres from the water's edge. Avoid places where native animals and domestic stock drink.
- Never leave food scraps at your campsite. Always check that previous campers have left no food scraps.
- Never prepare food, wash dishes or pursue any other activities near the water's edge or adjacent sloping banks.
- Be more aware of crocodiles during the breeding season—September to April.
